About GPPAC

The GPPAC Foundation is a non-governmental organisation that promotes conflict prevention and peacebuilding strategies and supports and connects people working for peace worldwide. It is the Global Secretariat of the Global Partnership for the Prevention of Armed Conflict (GPPAC), a network of civil society organisations working in this field. See: www.gppac.net

We facilitate connections between network members for learning and knowledge exchange, and we work to make sure that the voices of local civil society organisations are heard in national and international policy arenas.

GPPAC seeks to build a new international consensus on the way in which we approach violent conflict, calling for a fundamental change: a shift from reaction to prevention.

About the GPPAC Internship Programme

Interns are invaluable to GPPAC, as they support our programmes with a great deal of enthusiasm and dedication. In turn, we aim to provide our interns with a useful learning experience for professional development. In addition to on-the-job learning about the programme they intern with, interns will gain an overview of the workings of our organisation and network as a whole. We also provide a series of short workshops over the duration of the internship, on topics ranging from the theoretical (how to analyse a conflict) to the practical (how to develop a project budget). Each intern, together with their supervisor, sets personal learning goals, which are monitored throughout the internship.

Project Development and Monitoring & Evaluation

The intern will work with two staff members of the Networking Team, that are responsible for global networking aspects: (1) Project Development, and (2) Planning, Monitoring, Evaluation, and Learning.

The Partnerships and Development Coordinator is responsible for developing new projects and raising funds for GPPAC and with GPPAC members. With the Partnerships and Project Development, we manage our efforts to secure enough financial resources to be able to carry out GPPAC activities through our regional networks and global activities in order to implement the GPPAC Strategic Plan. The Coordinator Planning, Monitoring, Evaluation and Learning coordinates and facilitates GPPAC staff and the fifteen regional secretariats in their (strategic) planning and reporting processes and assists in and executes evaluations.

Tasks

The tasks of this internship will include, amongst others:

Project Development

- Assist with the preparation of high-quality proposals and reports to donors while ensuring that donor guidelines are respected.
- Liaise with GPPAC members and Programme Managers to gather information for funding proposals and reports.
- Identify potential new sources of funding which reflect GPPAC strategic priorities and for which GPPAC or GPPAC network members are eligible.

-

- Support the process with developing a new strategic plan for GPPAC, including organising two international network meetings in March and May.

General task(s)

- Develop the second season of the Peace Corner Podcast series together with the other interns (conduct interviews, prepare interview questions, identify topics, etc.). You can find the podcast [here](#).
