About GPPAC

The GPPAC Foundation is a non-governmental organisation that promotes conflict prevention and peacebuilding strategies and supports and connects people working for peace worldwide. It is the Global Secretariat of the Global Partnership for the Prevention of Armed Conflict (GPPAC), a network of civil society organisations working in this field. For more, see <u>www.gppac.net</u>

We facilitate connections between network members for learning and knowledge exchange, and we work to make sure that the voices of local civil society organisations are heard in national and international policy arenas.

GPPAC seeks to build a new international consensus on the way in which we approach violent conflict, calling for a fundamental change: a shift from reaction to prevention.

About the GPPAC Internship Programme

Interns are invaluable to GPPAC, as they support our programmes with a great deal of enthusiasm and dedication. In turn, we aim to provide our interns with a useful learning experience for professional development. In addition to on-the-job learning about the programmes they intern with, interns will gain an overview of the workings of our organisation and network as a whole. We also provide a series of short workshops over the duration of the internship, on topics ranging from the theoretical (how to analyse a conflict) to the practical (how to develop a project budget). Each intern, together with their supervisor, sets personal learning goals, which are monitored throughout the internship.

Member research and SDG advocacy internship

This internship bridges two different areas of work and two teams at the GPPAC Global Secretariat:

Member research

In the Regional Team, which supports the work of GPPAC members around the world, we will be undertaking a major survey and analysis of the 200+ local peace organisations that make up the GPPAC network. This research will map their areas of expertise, their needs, and how GPPAC can better support their work. The intern will support the collection and analysis of the data, and help formulate conclusions and recommendations for the GPPAC Global Secretariat and regional networks.

SDG Advocacy

In September 2015, the international community adopted Agenda 2030, which includes 17 Sustainable Development Goals (SDGs). It explicitly recognises the link between peace and sustainable development, and peace is a central topic across the Agenda as well as in a separate goal, SDG 16 on peaceful, just and inclusive societies.

GPPAC's Global Team supports GPPAC members to act on this by raising awareness about the SDGs and opportunities to link their work to this framework. GPPAC also brings experiences and lessons learnt from our members to policymakers, relating them to the SDG agenda in a meaningful way.
